SERVICE ADVISORY INDEXES

The frequency and format of the Service Advisory Indexes are going to change. Indexes will be sent quarterly and yearly, and the 800 number and Telex information, which is currently at the end of each Advisory, will be moved to the back of the Advisory Index.

Quarterly indexes are to be sent at the end of the following months:

- March (This index will list Advisories sent during the 1st quarter only)
- June (This index will list Advisories sent during the 2nd quarter only)
- September (This index will list Advisories sent during the 3rd quarter only)
- December (This index will list Advisories sent during the 4th quarter only)

A yearly index is to be sent each January and will index every Advisory (except obsolete Advisories) sent since March 1983.

Bulletin Indexes will continue to be sent with each Bulletin, but the 800 number and the Telex information will be moved to the back of the Bulletin Index.
